BITS & PIECES

Sprinkler System: Please DO NOT hit, bump, or hang anything from the pipes or fire sprinklers as you could set off the sprinklers and flood your apartment.

Ventilation System/Windows: The building has a ventilation system that provides round-the-clock fresh air to each apartment. Under your window there is a trickle vent that allows air from outside to enter your apartment. The bathroom fan will also operate 24/7 to pull air out of the apartment and draw in fresh air. This works best if you leave your bathroom and bedroom doors open as much as possible.

Room Temperature: There is a heater in each living room, as well as one under the window in your bedroom near your desk. To adjust the heat, open the panel and turn the knob to 6 for high and 0 for low.

Bedroom Door Locks: To lock your door, push the button in and turn it to the horizontal position. To unlock the door, set button vertically, and push down on handle.

NEARBY ATTRACTIONS

Club Med: On-campus cafe serving breakfast and lunch. Located in the Telemedicine building: hdh.ucsd.edu/clubmed

The Shops at La Jolla Village: Via La Jolla Drive and Nobel Drive. Includes a Whole Foods, Peets, Sprinkles Cupcakes, and CVS Pharmacy: www.theshopsatlaajollavillage.com
