Mark welcomed the committee members and gave a brief summary of ARCH Advisory Committee and their charge.  
- He explained that this committee provides recommendation to the Vice Chancellor of Business Affairs/CFO. He encouraged members to feel free to share what they want, as these meetings are an open dialogue. The goal is to improve the housing experience for the residents and to fix problems. The committee is tasked with making the best decisions they can. Since the rates have already been approved for this year and next year, the committee can focus on other issues and talk about what they feel is important. He also said that it should never be assumed that HDH knows about an issue and encouraged the members to feel free to bring things up here.
- Mark then gave an overview of the appeals process and explained that the goal is to be fair to everyone.
  ○ Cory elaborated on the subject and explained that when someone wants an exception, they can petition to get an exception (an appeal). If Housing doesn’t approve it, it is sent to the committee to review. The committee then decides whether or not to approve the appeal based on the information provided and precedent. The committee determines whether the circumstance is unique and extenuating. Sometimes, when there are a lot of appeals, they are triaged into categories and moved on as a slate.
  ○ Kim shared that the appeals are received electronically. They are then discussed and voted on at the following meeting.
  ○ Cory pointed out that members can proxy to anyone on the committee if they cannot make it to a meeting. But noted that proxies don’t count for quorum.

Appeal 481
- Kim motioned to vote.
  ○ Sophia seconded the motion.
    ▪ Appeal denied with 1-5-1 vote.

Appeal 482
- Discussions began on this appeal and will continue at the next meeting.

Mark stated that the next meeting is Tuesday, 12/16, 10am in the 3rd Floor Rita Atkinson Conference Room.
Next week’s agenda consists of finishing up the appeals and the new Graduate Housing Project. He also wants the committee to review the list of potential agenda items and review updates for items that have been carried over from last year.

If any member wants to add an agenda item, please send the requests to Mark or Cory.
