Self-Selection Process, Optional Dining Plans and Priority Deadlines

Summer Housing Self Select

As an acceleRATE summer housing applicant you will be able to self-select your summer space. **You cannot pick your summer allocation until after** you have fully completed the contract process online (i.e. submitting your prepayment and signing the housing contract). Students who have not submitted their prepayment and electronically signed their housing contract will not be authorized to pick their summer housing allocation. **Students who have completed both but have not self-selected their summer space by June 1st for any session beginning on July 2nd will be assigned a summer space.** Your space will be assigned depending on availability.

Students wishing to room with another student will need to communicate with potential roommates in order to see which space (i.e. building, room, suite, etc.) they have selected. Students may then go in to see if a space is available in that room and/or suite. It is highly suggested that students wishing to room together, apply and complete the contract process around the same time in order to better your chances of picking a summer allocation in the same room and/or suite.

Optional Summer Dining Plans

The acceleRATE Summer Housing Program **does not include** a mandatory dining plan. We are providing two optional dining plans to students who wish to have a dining plan for the duration of their summer stay.
